VOLVO TRUCK ACCESSORIES

VOLVO FMX
No two transport operations are identical. Conditions differ. We know that all drivers have their own unique personality, habits and requirements. How do you turn your truck to perfectly match your assignments and work routines?

Volvo FMX is a good start. It’s a robust truck for rough conditions, whatever your load is. Our accessories will help you to tailor your truck even further. Accessories that will boost efficiency and save fuel, such as Work Remote Control, specialised I-Shift software packages or added electronic functions to the suspension. Extras that will make it easier for you to do a perfect job under extreme conditions.

Perfection is in the details. The little things that help create a workplace where you feel at ease and can get things done. Details that will make your truck even tougher.

Of course it takes more than just Volvo accessories to make your truck completely unique. But they are a natural beginning.
Let’s get personal.

Welcome to Volvo Truck Accessories. Here you will find a wide range of accessories that makes your truck perfectly suited for your transport tasks – and for your personality too, if you so desire.

One thing is for sure, you can rely on Volvo Truck Accessories. Every product is developed or selected according to Volvo’s strict requirements for high quality and safety. Specially designed for Volvo trucks to ensure a perfect fit. The choice is yours.
AIR HORNS, ROOF MOUNTED
The electrical-pneumatic extra horn sounds with a powerful tone, warning nearby road users. The air horn is reliably and safely operated with a button on the steering wheel.

FEATURES & BENEFITS
• Enhances traffic safety in critical situations
• Personalises the truck
• Tested in wind tunnel for low air resistance

WATER TANK FOR THE EXTERIOR STORAGE
A bottle of water isn’t enough. Fill the special container with fresh water instead. The water tank is specially designed to fit the exterior storage on the new Volvo FH, FM and FMX. Pull out, turn the tap and drink, wash or fill up bottles.

FEATURES & BENEFITS
• Holds approximately 6.5 litres
• Environmentally friendly – less PET bottles
• A tap makes it easy to fill up water

ADDITIONAL FOOTSTEP – FRONT
For trucks with high ground clearance you can choose an extra, fold-down footstep in the front bumper.

FEATURES & BENEFITS
• Makes it easier to clean the windscreen
• Safe, thanks to effective anti-slip properties

ADDITIONAL FOOTSTEP – ENTRY
For trucks with high ground clearance it is possible to choose an articulated extra footstep, positioned below the standard steps, facilitating entering the cab. Available for vehicles specified for construction duties.

FEATURES & BENEFITS
• Low entry makes it easy to step in and out of the truck
• Articulated design to withstand impacts
• Excellent anti-slip design
• Articulated = lowered risk of damaging

ROOF ARCH WITH OR WITHOUT AIRFLOW SYSTEM
The heavy-duty aluminium arch provides flexibility when fitting accessories on the roof, for example extra lamps and beacon lights. An installation kit with clamps is available for each accessory for easy fitting. Meets Volvo’s high standard of tightness against leakage.

FEATURES & BENEFITS
• Easy fitting of extra equipment on the roof
• Installation with high leakage resistance
• Supplied complete with installation material and mounting instructions
• Minor effects on the vehicle’s aerodynamics and weight

ROOF BAR: REAR POSITION
The roof bar in the rear position provides a great deal of flexibility when it comes to fitting accessories like rotating beacons and spotlights.

FEATURES & BENEFITS
• Flexible and easy fitting of accessories
• Can carry up to 10 kg. Made of extrusion-pressed aluminium

SIDE LADDER AND GUIDE RAIL
With the side ladder it is possible to move from the driver’s seat straight to the outside rear of the cab. The guide rail makes it easier to move from the door opening to the ladder.

FEATURES & BENEFITS
• Makes it easy for the driver to move from the cab to the cargo platform without first climbing down to the ground
• Effective anti-slip treatment gives enhanced safety
• The side-ladder and guide rail can be specified for day cab (L1EH1)
• The guide rail can also be specified separately

LADDER ON THE BACK OF CAB
The extension ladder offers the driver a safe and practical working tool. The ladder is easy to reach. It is fixed at the back of the cab, on the right-hand side.

FEATURES & BENEFITS
• A safe working environment
• Made of sturdy aluminium
• Always at hand
• Fitted with non-slip rugs

ADDITIONAL FOOTSTEP – ENTRY
For trucks with high ground clearance it is possible to choose an extra, fold-down footstep, positioned below the standard steps, facilitating entering the cab. Available for vehicles specified for construction duties.

FEATURES & BENEFITS
• Low entry makes it easy to step in and out of the truck
• Articulated design to withstand impacts
• Excellent anti-slip design
• Articulated = lowered risk of damaging

ROOF ARCH WITH OR WITHOUT AIRFLOW SYSTEM
The heavy-duty aluminium arch provides flexibility when fitting accessories on the roof, for example extra lamps and beacon lights. An installation kit with clamps is available for each accessory for easy fitting. Meets Volvo’s high standard of tightness against leakage.

FEATURES & BENEFITS
• Easy fitting of extra equipment on the roof
• Installation with high leakage resistance
• Supplied complete with installation material and mounting instructions
• Minor effects on the vehicle’s aerodynamics and weight

BUG NET
The bug net protects the radiator from insects. The screen is easy to clean, just lift the upper front hatch and rinse from below.

FEATURES & BENEFITS
• Keeps insects away from the radiator
• Contributes to better engine cooling
• Extends radiator service life
• Quick and easy to clean

WATER TANK FOR THE EXTERIOR STORAGE
A bottle of water isn’t enough. Fill the special container with fresh water instead. The water tank is specially designed to fit the exterior storage on the new Volvo FH, FM and FMX. Pull out, turn the tap and drink, wash or fill up bottles.

FEATURES & BENEFITS
• Holds approximately 6.5 litres
• Environmentally friendly – less PET bottles
• A tap makes it easy to fill up water

ADDITIONAL FOOTSTEP – FRONT
For trucks with high ground clearance you can choose an extra, fold-down footstep in the front bumper.

FEATURES & BENEFITS
• Makes it easier to clean the windscreen
• Safe, thanks to effective anti-slip properties

ADDITIONAL FOOTSTEP – ENTRY
For trucks with high ground clearance it is possible to choose an articulated extra footstep, positioned below the standard steps, facilitating entering the cab. Available for vehicles specified for construction duties.

FEATURES & BENEFITS
• Low entry makes it easy to step in and out of the truck
• Articulated design to withstand impacts
• Excellent anti-slip design
• Articulated = lowered risk of damaging
DAYTIME RUNNING LIGHT
Software upgrade to Daytime Running Light (DRL). Fulfils legal demands where daytime running light is mandatory. When the dipped beam is activated the DRL light is dimmed to parking light.

FEATURES & BENEFITS
• Contributes to a safer road traffic, thanks to enhanced visibility of the truck
• Unique V-shaped appearance
• Quick and easy installation – only software upgrade via Volvo Tech Tool

SPOTLAMPS: OVAL AND WHITE
Oval and white spotlamp in a smart design for safer driving in dark. Intended primarily to be installed in the grille.

FEATURES & BENEFITS
• Additional lighting helps you both see and be seen
• Makes driving at night safer and more comfortable

SPOTLAMPS: RECTANGULAR
Increases visibility in dark and bad weather. The Volvo rectangular spot lamps suit all vehicle types and allow for a wide choice of location.

FEATURES & BENEFITS
• Additional lighting helps you both see and be seen
• Makes driving at night safer and more comfortable
• Short and broad or long and narrow beam

FLASHER LED WARNING LIGHT
Two LED flashing (strobe) lights provide an excellent all-round warning. It is possible to program 8 different flashing sequences. The lights are impact-resistant.

FEATURES & BENEFITS
• LED lamps with low power consumption and long service life
• Secure installation ensures high quality and minimizes the risk of water leakage into the cab
• Low profile design

FOG LAMPS: OVAL WHITE
Oval fog lamps in a smart design with white, short and broad beam. Increases visibility in fog and bad weather. Intended primarily to be installed on the lower front bar.

FEATURES & BENEFITS
• Additional lighting helps you both see and be seen
• Makes driving in fog safer and more comfortable

FOG LAMPS: OVAL AND WHITE
Oval fog lamps in a smart design for safer driving in dark. Intended primarily to be installed in the grille.

FEATURES & BENEFITS
• Additional lighting helps you both see and be seen
• Makes driving in fog safer and more comfortable

EXTRA SPOT LAMPS IN SIGN BOX
The Globetrotter cab can be filled with extra spot lamps on each side of the roof cab sign.

FEATURES & BENEFITS
• Very efficient complement to the standard headlamps
• Extended full beam and enhanced possibilities to explore obstacles on the road
• Position protected from stones flying up from the road

ROOF SIGN ILLUMINATION
The light box fluorescent lighting is completely integrated, eliminating all light leakage into the cab. The illumination is turned on and off via a switch in the cab.

FEATURES & BENEFITS
• Clear, illuminated advertisement
• Flourescent lighting for even illumination
• Easy installation into the cab roof
Wheels

**Aluminium Alloy Wheels**
The aluminium alloy wheels offer good comfort due to precise concentricity while at the same time reducing tyre wear. The low weight (almost half of steel rims) saves valuable load capacity. Thanks to the better heat dissipation of aluminium, life time of brakes and tyres are increased. The aluminium wheels also give the truck a stylish appearance.

**Features & Benefits**
- Increased payload and reduced fuel consumption due to lower weight
- Enhanced image – stylish appearance
- Increased strength and durability
- 100% recyclable
- Dura-Bright® surface treatment eliminates cracking, peeling and corrosion

**Dura-Bright® Aluminium Alloy Wheels**
- Brushed aluminium alloy wheels
- Polished aluminium alloy wheels

**Mud Flaps**
Practical anti-spray mud flaps with Volvo logo. Lightweight, chemical and cold resistant (-40°C). Easy to fit on an aluminium bracket, mounted on the mudguard. If hit, the mudflap will fall off the bracket without damaging the mudguard.

**Features & Benefits**
- For all different tyre dimensions
- Light and with long service life
- Adjustable in two positions
- Full guard with a detachable top

**Mud Guard Fenders Rear**
Keep the truck and nearby vehicles clean by covering the rear wheels. Conform to regulations in most countries.

**Features & Benefits**
- Tailor-made and aerodynamically engineered
- Durable
- Do not flap in the slipstream

Lighting

**Headlamp Protection, Grid and Mesh**
Grid-formed protection made of steel and covering the complete headlamp system. Additional mesh intended for off-road use.

**Features & Benefits**
- Prevents unnecessary damages and repairs
- Made of steel and very durable
- Two versions suitable for different use

**LED Tail Lamp with Integrated Functions**
The LED tail lamp has all functions integrated in the lamp housing: tail light, exterior marker light, brake light, hazard warning, reverse light, rear fog light and reflector. All light functions have LED lights, which means low energy consumption.

**Features & Benefits**
- Consistent bright light throughout the LED lifetime
- Inensitive to vibrations
- Long operational life
- Modern design

**Marker and Position Lights**
Marker and position lights for the side of your chassis and/or trailer. Other vehicles can see the full length of your chassis and trailer in dark and bad weather. Enhances safety especially by overtaking or at intersections.

**Features & Benefits**
- Beneficial to safety
- Fast fitting – all vehicles are ready wired for identification lamps
- Corrosion resistant and very strongly made

**Working Lamp: Roof/Rear of Cab Wall**
The Volvo working lamp covers a wide area of use. The pattern of light is sufficiently broad to cover the platform, or the entire area around the fifth-wheel coupling. The lens is bonded to the entirely weather-proof housing. The built-in handle makes it easy to swivel the lamp for the best aim.

**Features & Benefits**
- Broad, consistent lighting pattern
- Weather-proof fittings
- Impact-, scratch- and corrosion-resistant
- Swivelling with built-in handle

**Mud Flaps**
Practical anti-spray mud flaps with Volvo logo. Lightweight, chemical and cold resistant (-40°C). Easy to fit on an aluminium bracket, mounted on the mudguard. If hit, the mudflap will fall off the bracket without damaging the mudguard.

**Features & Benefits**
- Tailor-made and aerodynamically engineered
- Durable
- Do not flap in the slipstream

**Marker and Position Lights**
Marker and position lights for the side of your chassis and/or trailer. Other vehicles can see the full length of your chassis and trailer in dark and bad weather. Enhances safety especially by overtaking or at intersections.

**Features & Benefits**
- Beneficial to safety
- Fast fitting – all vehicles are ready wired for identification lamps
- Corrosion resistant and very strongly made
**Wheel Covers**

Covers in polished stainless steel for protection of rim and wheel. Scratch and corrosion resistant. Fits all steel or aluminium rims with 10 wheel bolts.

**Features & Benefits**
- Protect rims and wheel
- Easy fitting
- Black centre plate with Volvo iron mark
- Fits all steel or aluminium rims with 10 wheel bolts

**Wheel Covers: Plastic**

Designed to provide reduced air resistance, together with the airflow systems they help to considerably improve the fuel efficiency. They also provide an attractive look and personal touch to your vehicle.

**Features & Benefits**
- Made of durable, impact-resistant plastic
- Easily and securely fitted to the wheels
- Give your truck an attractive look
- For all vehicles with 22.5" steel rims

**Wheel Covers: Stainless Steel**

Wheel covers in polished stainless steel protect rims and wheel bolts. Black centre cap with chrome effect Volvo iron mark.

**Features & Benefits**
- Give your truck an attractive look
- Easily and securely fitted to the wheels in a short time
- Scratch and corrosion resistant
- For all vehicles with 22.5" steel rims

**Wheel Nut Caps**

Wheel nut caps protect the wheel nuts and give a smarter appearance. The caps are embossed with the Volvo iron mark. Fits all steel or aluminium rims with 10 wheel bolts.

**Features & Benefits**
- Give your truck an attractive look
- Easy to mount

**Chassis Fitted Storage and Tool Box**

Sturdy, tight-sealing 250-litre storage and tool box for mounting onto the chassis (right or left side). Made of hard-wearing plastic.

**Features & Benefits**
- Made of hard-wearing, UV-resistant plastic for durability
- Tight with seals – keeps water and grime out
- Two grip handle for safe opening

**Fuel Anti-Theft/Spilling Device**

Prevents diesel theft and secures that no fuel is spilled either at fuel filling or during driving. A conical shaped perforated basket is used as an anti-theft device to prevent syphoning.

**Features & Benefits**
- Reduces the risk of theft
- Reduces fuel cost
- Eco-friendly – prevents excessive evaporative emissions and spillage

**Lockable Fuel and AdBlue Filler Caps**

Lockable filler caps are an inexpensive protection against theft and sabotage. Separate or in handy kits for both fuel and AdBlue tank caps with one common key.

**Features & Benefits**
- Prevents theft and sabotage of fuel and AdBlue
- Reliable, even in damp and cold conditions
- Easy to grip
- One key for both fuel and AdBlue
**Comfort**

**Interior**

**AIR BLOW GUN**
By connecting the air blow gun to an inlet inside the cab you can utilise the compressed air system in the truck to blow out dust from the cab interior or clean your clothes and shoes. The outlet is located behind the driver seat.

**FEATURES & BENEFITS**
- Easy and convenient way of cleaning the cab interior
- 2 metres polyurethane recoil tubing
- Easy connecting and disconnecting of the hose

**FLEXIBLE READING LAMP**
Extra light where you need it. With a directional, concentrated beam and fitted to the sidewalls or elsewhere in the cab.

**FEATURES & BENEFITS**
- Supplied complete with bulb and support clips
- Superb light with LED
- Easy to adjust, using the flexible arm for comfortable reading

**STEERING WHEEL IN LEATHER**
The steering wheel in leather has a firm and pleasant grip. This version for FM and FMX has Raven Dark Skylark colour.

**FEATURES & BENEFITS**
- Offers a firm and pleasant grip
- Leather of high quality
- Stylish appearance

**SEAT ARMRESTS: BASIC**
Boost comfort on longer journeys. Can be adjusted vertically, and can also be folded out of the way.

**FEATURES & BENEFITS**
- Ergonomically suitable driving position
- Improves safety
- Quickly and easily fitted

**SEAT ARMRESTS: LEATHER**
Exclusive leather armrests that boost comfort on longer journeys. Can be adjusted vertically, and can also be folded out of the way.

**FEATURES & BENEFITS**
- High-quality leather
- Improves safety
- Ergonomically suitable driving position
- Quickly and easily fitted

**BUNK CURTAINS**
Curtain which divides the driving area from the resting area. The curtain comes in one woven textile which matches the cab’s trim level.

**FEATURES & BENEFITS**
- Shut out light and maintain privacy
- Ready[sic] to hang up on the standard-mounted rail
- Conforms to all Volvo safety standards, including fire-resistance
- Offered in three different heights

**BOTTLE HOLDER IN DRIVING AREA**
Convenient bottle holder, fitted on the centre part of the dashboard.

**FEATURES & BENEFITS**
- Easy accessible and safe storage
- Space for a 1.5-litre plastic soft-drink bottle
- Integrated design and colour
- Available for left hand drive and right hand drive

**COFFEE MAKER IN THE CAB**
No need to visit a truck stop to get a cup of coffee. This stylish coffee maker, tailor-made for Volvo cabs, fits perfectly on the lower side in the centre of the dashboard. Requires preparation kit.

**FEATURES & BENEFITS**
- Supplied complete with bulb and support clips
- Supercb light with LED
- Easy to adjust, using the flexible arm for comfortable reading

**FLEXIBLE READING LAMP**
Extra light where you need it. With a directional, concentrated beam and fitted to the sidewalls or elsewhere in the cab.

**FEATURES & BENEFITS**
- Easy to reach from the driver’s seat
- Steady, safe and specially designed for Volvo
INTERIOR SUN VISOR FOR SIDE WINDOW
Reduces or eliminates glare from low sun from the side. When not in use it is folded up under the ceiling.
FEATURES & BENEFITS
• Reduces the side glare from low sun in the cab
• Keeps you more alert when driving
• Easy to clean and store

PAPER DISPENSER
Comes in handy for dirty hands, mirrors or windscreens. Can be hung on a hook on the cab wall – easy to reach.
FEATURES & BENEFITS
• Easily attached to a hook on the wall
• First paper roll included
• Water- and fire-resistant fabric

REFRIGERATOR IN UPPER REAR SHELF
The high-capacity refrigerator has a volume that holds 25 litres and it is fitted in the left-side compartment in the rear storage shelf. The temperature maintains a normal mode of +6°C even at ambient temperatures over +40°C.
FEATURES & BENEFITS
• Good refrigeration capacity even in very warm climates
• Positioned for easy access in the rear-wall storage unit
• Refrigerator lighting that makes it easy to locate
• Generous 25-litre volume

BACKREST LUMBAR SUPPORT CUSHION
The cushion provides comfortable lumbar support and reduces the risk of strain and injury.
FEATURES & BENEFITS
• Supports the lower back
• Keeps you more alert when driving
• Easy to clean and store
• Ergonomic design

HEAD RESTRAINT CUSHION
Particularly good for long journeys. The cushion provides comfortable support for neck and shoulders, and reduces the risk of strain and injury.
FEATURES & BENEFITS
• Ergonomic design
• Keeps you more alert when driving
• Easy to clean and store

OVERLAY MATTRESS: BASIC
Facilitates bed making and increases the useful life of the spring mattress underneath. Can easily be removed and shaken, making the bed easier to keep clean.
FEATURES & BENEFITS
• Improves sleeping comfort
• 35 mm thick with padding
• Easy to keep the bed clean
• Protects the spring mattress underneath

OVERLAY MATTRESS: PREMIUM
Facilitates bed making and increases the useful life of the spring mattress underneath. Can easily be removed and shaken, making the bed easier to keep clean.
FEATURES & BENEFITS
• Improves sleeping comfort
• 50 mm thick with a core of 15 mm polyether and 15 mm padding on each side
• Easy to keep the bed clean
• Protects the spring mattress underneath

PAPER DISPENSER
Comes in handy for dirty hands, mirrors or windscreens. Can be hung on a hook on the cab wall – easy to reach.
FEATURES & BENEFITS
• Easily attached to a hook on the wall
• First paper roll included
• Water- and fire-resistant fabric

REFRIGERATOR IN UPPER REAR SHELF
The high-capacity refrigerator has a volume that holds 25 litres and it is fitted in the left-side compartment in the rear storage shelf. The temperature maintains a normal mode of +6°C even at ambient temperatures over +40°C.
FEATURES & BENEFITS
• Good refrigeration capacity even in very warm climates
• Positioned for easy access in the rear-wall storage unit
• Refrigerator lighting that makes it easy to locate
• Generous 25-litre volume

BACKREST LUMBAR SUPPORT CUSHION
The cushion provides comfortable lumbar support and reduces the risk of strain and injury.
FEATURES & BENEFITS
• Supports the lower back
• Keeps you more alert when driving
• Easy to clean and store
• Ergonomic design

HEAD RESTRAINT CUSHION
Particularly good for long journeys. The cushion provides comfortable support for neck and shoulders, and reduces the risk of strain and injury.
FEATURES & BENEFITS
• Ergonomic design
• Keeps you more alert when driving
• Easy to clean and store

FEATURES & BENEFITS
• Good refrigeration capacity even in very warm climates
• Positioned for easy access in the rear-wall storage unit
• Refrigerator lighting that makes it easy to locate
• Generous 25-litre volume
RUBBER MATS ON FLOOR
The best way to keep the cab clean. The rubber floor mats contribute to a more pleasant cab interior.

FEATURES & BENEFITS
• Water, snow and sand etc. remain on the mat
• Tailor made for perfect fit
• Saves the original flooring
• Easy to remove and shake or wash

TEXTILE MAT ON FLOOR
The textile mat is made of high quality and durable textile. The edges are stitched to prevent fraying.

FEATURES & BENEFITS
• Adds comfort to the interior
• Reduces the sound level
• Easy to remove and shake or wash clean
• Tailor-made for perfect fit

BRACKET FOR REFRIGERATOR ON ENGINE TUNNEL
The bracket is fitted against the rear wall of the cab and intended for safe mounting of a refrigerator on the engine tunnel.

FEATURES & BENEFITS
• Crash-tested according to Volvo’s safety requirements

SEAT COVERS IN VINYL AND TEXTILE
Protects the vehicle’s original upholstery. Specially designed for Volvo in two colours, providing a perfect fit and design. Complies with Volvo’s stringent requirements for resistance to fire and wear.

FEATURES & BENEFITS
• Machine washable at 40°C
• Made in durable vinyl and textile
• High quality material
• Fire and wear resistant

TOWEL HANGER ON THE UPPER BUNK
No more wet towels or clothes in the bunk. This convenient towel hanger consists of a rail, fitted to the upper bunk. An easy way to always keep your towels out of the way.

FEATURES & BENEFITS
• Allows for good air flow
• Keeps your cab tidy
• Easy to attach and remove from upper bunk with elastic strips

WRITING PAD FOR STEERING WHEEL
Simplifies your administrative work. Convenient to use – attach it to the steering wheel when the truck is standing still.

FEATURES & BENEFITS
• Spring-loaded paper clip keeps documents securely in place
• Easy to attach
• All papers at one place – in and out of the truck

DRYING COMPARTMENT FOR CLOTHES AND SHOES
A textile bag with a fan at the bottom. It’s a perfect solution to always keep a jacket, towels or smaller items dry. Just fix it to the upper bunk outer edge or to a clothes hanger at the wall. When it’s not in use, simply fold it up and put it away.

FEATURES & BENEFITS
• No more wet clothes or other items in the cab
• Easy and quick to hang up and start using
• Energy effective
• Foldable and easy to store away folded

REFRIGERATOR 19 LITRES
The 19-litre refrigerator is fitted on the engine tunnel. It offers automatic rapid cooling to almost 0°C when the alternator is charging. Refrigeration takes place in modern Peltier elements, without any moving parts or gases.

FEATURES & BENEFITS
• Environmentally friendly – no freons
• Crash-tested according to Volvo’s safety requirements
• Quiet operation
• Lighter than a compressor box

BRACKET FOR REFRIGERATOR ON ENGINE TUNNEL
The bracket is fitted against the rear wall of the cab and intended for safe mounting of a refrigerator on the engine tunnel.

FEATURES & BENEFITS
• Crash-tested according to Volvo’s safety requirements

REFRIGERATOR 19 LITRES
The 19-litre refrigerator is fitted on the engine tunnel. It offers automatic rapid cooling to almost 0°C when the alternator is charging. Refrigeration takes place in modern Peltier elements, without any moving parts or gases.

FEATURES & BENEFITS
• Environmentally friendly – no freons
• Crash-tested according to Volvo’s safety requirements
• Quiet operation
• Lighter than a compressor box

TEXTILE MAT ON FLOOR
The textile mat is made of high quality and durable textile. The edges are stitched to prevent fraying.

FEATURES & BENEFITS
• Adds comfort to the interior
• Reduces the sound level
• Easy to remove and shake or wash clean
• Tailor-made for perfect fit
Storage Pocket in Switch Slot
Small storage pocket placed in an empty switch slot. Ideal for storing coins, etc. Made in plastic with a rubber mat, and has a lid that keeps the items in place.

Features & Benefits
- Handy compartment for smaller items
- Rubber mat prevents items from rattling

DIN Slot Housing
The DIN slot housing is needed if you want to add accessories, such as push box or a card and coin holder, to one of your DIN slots.

Features & Benefits
- Perfect fit
- Easy to mount

Document Storage on Engine Tunnel
Storage compartment with lid, and space for bottles and/or mugs. Fitted between the seats on the engine tunnel.

Features & Benefits
- Document box for A4 documents
- Keeps cans and bottles in place
- Can be used as a table top
- Easy to fit, thanks to pre-drilled holes

DIN Slot Housing
The DIN slot housing is needed if you want to add accessories, such as push box or a card and coin holder, to one of your DIN slots.

Features & Benefits
- Perfect fit
- Easy to mount

Office Equipment Storage Box with Wastepaper Basket
The storage space is designed to hold either an A4-sized binder/write pad or up to two 1.5-litre bottles. Includes a wastepaper basket. For trucks equipped with I-shift.

Features & Benefits
- Keeps A4-sized binders and write pad convenient in place
- Open and easy accessible
- Supplied complete with installation parts
- Space for bottles
- Wastepaper basket

Rear Wall Storage Box
Rear wall storage box for the Day cab. Mounted on the rear wall in the Day cab.

Features & Benefits
- Keeps A4-sized binders and write pad convenient in place
- Open and easy accessible
- Supplied complete with installation parts
- Space for bottles
- Wastepaper basket

Card and Coin Holder: For DIN Slot
A handy way of always having cash and credit cards within convenient reach. Holds up to four cards and a small amount of coins.

Features & Benefits
- Four credit card slots
- Easy to install (fits in a DIN slot)
- Discrete design that matches the rest of the interior

Safety Box for Valuable Items
Keys, money, credit cards, important papers. This safety box is the perfect place to protect your most valuable items. It makes any attempted theft more difficult. The box is fitted at the side of the bed, behind the driver, between the two side panels and the bed.

Features & Benefits
- Less worry for valuable properties
- Robust metal box, extra thick cover and heavy-duty lock with key
- A bottom insert to prevent damage to stored items
- Easy to install, store and use

Storage Box on Engine Tunnel
Open storage box, mounted on the engine tunnel. The storage box is supplied complete with installation parts.

Features & Benefits
- Helps keeping things in order in the cab
- Open and easy accessible
- Bottles and cans easy at hand for the driver and passenger

Storage Box Rear, Day Cab
The storage box is fitted against the cab's rear wall and can hold a bottle and binders.

Features & Benefits
- Keeps cans and bottles in place
- Odds and bits easy at hand for the driver and passenger
- Easy to fit, thanks to pre-drilled holes

Storage Drawer in DIN Slot with Pushbutton Latch
Handy drawer that can be fitted in an empty DIN slot near the driver's seat. Can be conveniently opened and shut by just pressing it. The drawer can also be removed entirely.

Features & Benefits
- Perfect to store small things
- Easy to mount
- Designed to match the rest of the interior

Rear Wall Storage Box
The storage box is fitted against the cab's rear wall and can hold a bottle and binders.

Features & Benefits
- Keeps cans and bottles in place
- Odds and bits easy at hand for the driver and passenger
- Easy to fit, thanks to pre-drilled holes

Storage Box on Engine Tunnel
Open storage box, mounted on the engine tunnel. The storage box is supplied complete with installation parts.

Features & Benefits
- Helps keeping things in order in the cab
- Open and easy accessible
- Bottles and cans easy at hand for the driver and passenger

Office Equipment Storage Box with Wastepaper Basket
The storage space is designed to hold either an A4-sized binder/write pad or up to two 1.5-litre bottles. Includes a wastepaper basket. For trucks equipped with I-shift.

Features & Benefits
- Keeps A4-sized binders and write pad convenient in place
- Open and easy accessible
- Supplied complete with installation parts
- Space for bottles
- Wastepaper basket

Rear Wall Storage Box
Rear wall storage box for the Day cab. Mounted on the rear wall in the Day cab.

Features & Benefits
- Keeps A4-sized binders and write pad convenient in place
- Open and easy accessible
- Supplied complete with installation parts
- Space for bottles
- Wastepaper basket

Card and Coin Holder: For DIN Slot
A handy way of always having cash and credit cards within convenient reach. Holds up to four cards and a small amount of coins.

Features & Benefits
- Four credit card slots
- Easy to install (fits in a DIN slot)
- Discrete design that matches the rest of the interior

Safety Box for Valuable Items
Keys, money, credit cards, important papers. This safety box is the perfect place to protect your most valuable items. It makes any attempted theft more difficult. The box is fitted at the side of the bed, behind the driver, between the two side panels and the bed.

Features & Benefits
- Less worry for valuable properties
- Robust metal box, extra thick cover and heavy-duty lock with key
- A bottom insert to prevent damage to stored items
- Easy to install, store and use
Communication and Electronics

CRADLE FOR PHONE OR TABLET
Have your phone or tablet within easy reach on the dashboard. One cradle is needed for attaching a phone holder. Two cradles and a cradle plate is needed to attach a tablet holder (iPad, Android etc.). Telephone or tablet holder not included.

FEATURES & BENEFITS
- Easy to read, operate and understand
- Avoid the risk of overload
- Simple calibration
- Upgradeable by software parameter

ELECTRONICALLY CONTROLLED SUSPENSION (ECS): ADDITIONAL FUNCTIONS
Useful added functions give access to control functions for the air suspension with the Wireless Remote Control (WRC) or programmable switches on the dashboard. Examples of useful added functions: inhibit regulation, kneeling of one axle, change driving level, different load height levels, etc.

FEATURES & BENEFITS
- Adapt the vehicle to type of operation
- Better working conditions for the driver
- Save fuel by changing the driving height
- Easy operation by the Wireless Remote Control or switches on the dashboard

ELECTRONIC BRAKE SYSTEM (EBS): MEDIUM UPGRADE
Upgrade from EBS Standard to EBS Medium giving the following extra functions: EBS Status Control, Hill Start Aid, Lining Wear Analysis, Automatic Parking Brake Release and Parking Brake Activation On Trailer.

FEATURES & BENEFITS
- Easy and safe up-hill start
- Enhanced stability and counteracts of jack-knifing tendencies
- Increased uptime, thanks to monitoring of EBS status and lining wear

ENGINE IDLE SHUTDOWN SOFTWARE
When the engine is left idling for a defined time, the engine switches off to save fuel. The time delay can easily be adjusted. When PTO is being used, the engine idle shutdown function does not operate.

FEATURES & BENEFITS
- Less environmental impact (less CO2)
- Improved fuel economy
- Quick and simple installation

ENGINE PROTECTION SOFTWARE
Continuously monitors the engine status. Should a critical situation occur, it limits the engine output to prevent overheating.

FEATURES & BENEFITS
- Minimises the risk of engine breakdown and expensive repairs
- Reduces the risk for unplanned stops
- Quick and simple installation

IMMOBILISER
With the Volvo immobiliser, the engine can only be started with correct key. This means enhanced protection against theft. A chip with an electronic code is integrated in the key, securing the truck.

FEATURES & BENEFITS
- Enhanced security at the roadside
- High security through encrypted communication and vehicle integrity checks
- Easy upgrade by setting a software parameter

LOAD INDICATOR
The load indicator system allows for full utilisation of vehicle capacity without risking overload. Load distribution is specified as separate readings for weights, axle loads and bogie loads. Presentation and operation are available both on the dashboard and in the display of the Work Remote.

FEATURES & BENEFITS
- Convenient wireless remote control of suspension and loading heights
- Preset loading and driving levels
- Easy to read and operate load distribution
- Wireless remote control of engine, lights, locks, etc.

REMOTE CENTRAL LOCK KEY FOB
The remote control has a range of 30 metres and unlocks the driver and passenger doors in sequence to increase security. The key fob also includes buttons for approach light and panic alarm.

FEATURES & BENEFITS
- Convenient wireless remote control of suspension and loading heights
- Preset loading and driving levels
- Easy to read and operate load distribution
- Wireless remote control of engine, lights, locks, etc.

REMOT WORK REMOTE: WIRELESS
Remote control for electronically controlled suspension. Five loading levels and three driving levels can be preset and stored. Includes load indicator, engine start/stop, lights control and control of superstructure functions.

FEATURES & BENEFITS
- Convenient wireless remote control of suspension and loading heights
- Preset loading and driving levels
- Easy to read and operate load distribution
- Wireless remote control of engine, lights, locks, etc.
TELEMATIC EXTENDED SERVICE PLATFORM (TESP)
This hardware component, together with Telematics Gateway (TGW), enables the following main features for the driver:
- Messaging
- Positioning
- Driver Times
- Fuel & Environment
- Assist

TESP-T variant includes:
- Driver Service Platform
- Keyboard
- Touch screen

FEATURES & BENEFITS
- Provides Dynafleet and other useful functionalities for the driver

TELEMATICS GATEWAY (TGW)
Software upgrades for improved communication with Telematics Gateway (TGW): to 2G, to 2G with WLAN, and to 3G with WLAN.

FEATURES & BENEFITS
- Improves communication with TGW
- Supports remote communication between the truck and the office or workshop

FMS GATEWAY/INTERFACE FOR 3RD PARTY SYSTEMS
FMS gateway for vehicles with non-Volvo fleet management systems, using open FMS standard.
- No extra control unit is needed; it’s integrated in the cab in/out module.
- Connection to the digital tachograph for download of tachograph data.

FEATURES & BENEFITS
- Facilitates use of non-Volvo fleet management systems
- Allows for one common fleet management system for all vehicles
- Secures the vehicle network from external interference
- Easy installation

I-SHIFT SOFTWARE PACKAGE: DISTRIBUTION & CONSTRUCTION
Adds smart I-Shift functions that make low-speed manoeuvring easier. Especially valuable for distribution and construction trucks.

FEATURES & BENEFITS
- Facilitates low-speed manoeuvring
- Quick and simple installation

I-SHIFT SOFTWARE PACKAGE: HEAVY DUTY TRANSPORT
Containing special functions for really heavy transports, this software package makes I-Shift suitable for gross combination weights above 85 tonnes.

FEATURES & BENEFITS
- For gross combination weights above 85 tonnes
- Contains I-Roll
- Quick and simple installation

I-SHIFT SOFTWARE PACKAGE: LONG HAUL & FUEL ECONOMY
Equips I-Shift for fuel-efficient and comfortable long haul operations. Contains the freewheel function I-Roll (previously called EcoRoll).

FEATURES & BENEFITS
- Improves fuel economy
- Contain I-Roll
- Quick and simple installation

I-SHIFT SOFTWARE PACKAGE: LONG HAUL & FUEL ECONOMY WITH I-SEE
Adds I-See to the Long Haul & Fuel Economy package, leading to extraordinary fuel savings.

FEATURES & BENEFITS
- Provides excellent fuel economy
- I-See saves up to 5% fuel
- Quick and simple installation

I-SHIFT SOFTWARE PACKAGE: BASIC
Software package that provides I-Shift with the gearbox’s basic functions for all-round driving. Included functions: PTO and Vocational Functions, Gear Selection Adjustment, Shift Strategy, Performance Shift, Gearbox Oil, Temperature Monitor and Heavy Start Engagement.

FEATURES & BENEFITS
- Restores I-Shift to its original state
- Quick and simple installation

I-SHIFT OPTION: ENHANCED GEAR SELECTION ADJUSTMENT, INCLUDING KICK-DOWN
Makes I-Shift even easier to operate, especially at low speeds. It also includes the kick-down function for maximum acceleration. This option is not available for Volvo FE.

FEATURES & BENEFITS
- Allows better manual gear control
- Kick-down function
- Quick and simple installation

I-SHIFT OPTION: ENHANCED PTO FUNCTIONS
Intelligent functions that provide more possibilities to tailor power take-off operation to the needs of your superstructure.

FEATURES & BENEFITS
- Easy to tailor PTO functions
- Quick and simple installation

I-SHIFT OPTION: ENHANCED PERFORMANCE – BAD ROADS
Includes a multitude of valuable functions for trucks that regularly drive in rough terrain, such as construction or timber trucks.

FEATURES & BENEFITS
- Prepares I-Shift for rough conditions
- Quick and simple installation

I-SHIFT SOFTWARE PACKAGE: LONG HAUL & FUEL ECONOMY WITH I-SEE
Adds I-See to the Long Haul & Fuel Economy package, leading to extraordinary fuel savings.

FEATURES & BENEFITS
- Provides excellent fuel economy
- I-See saves up to 5% fuel
- Quick and simple installation

I-SHIFT SOFTWARE PACKAGE: DISTRIBUTION & CONSTRUCTION
Adds smart I-Shift functions that make low-speed manoeuvring easier. Especially valuable for distribution and construction trucks.

FEATURES & BENEFITS
- Facilitates low-speed manoeuvring
- Quick and simple installation

I-SHIFT SOFTWARE PACKAGE: HEAVY DUTY TRANSPORT
Containing special functions for really heavy transports, this software package makes I-Shift suitable for gross combination weights above 85 tonnes.

FEATURES & BENEFITS
- For gross combination weights above 85 tonnes
- Contains I-Roll
- Quick and simple installation

I-SHIFT SOFTWARE PACKAGE: LONG HAUL & FUEL ECONOMY
Equips I-Shift for fuel-efficient and comfortable long haul operations. Contains the freewheel function I-Roll (previously called EcoRoll).

FEATURES & BENEFITS
- Improves fuel economy
- Contain I-Roll
- Quick and simple installation

I-SHIFT SOFTWARE PACKAGE: LONG HAUL & FUEL ECONOMY WITH I-SEE
Adds I-See to the Long Haul & Fuel Economy package, leading to extraordinary fuel savings.

FEATURES & BENEFITS
- Provides excellent fuel economy
- I-See saves up to 5% fuel
- Quick and simple installation

I-SHIFT SOFTWARE PACKAGE: BASIC
Software package that provides I-Shift with the gearbox’s basic functions for all-round driving. Included functions: PTO and Vocational Functions, Gear Selection Adjustment, Shift Strategy, Performance Shift, Gearbox Oil, Temperature Monitor and Heavy Start Engagement.

FEATURES & BENEFITS
- Restores I-Shift to its original state
- Quick and simple installation

I-SHIFT OPTION: ENHANCED GEAR SELECTION ADJUSTMENT, INCLUDING KICK-DOWN
Makes I-Shift even easier to operate, especially at low speeds. It also includes the kick-down function for maximum acceleration. This option is not available for Volvo FE.

FEATURES & BENEFITS
- Allows better manual gear control
- Kick-down function
- Quick and simple installation

I-SHIFT OPTION: ENHANCED PTO FUNCTIONS
Intelligent functions that provide more possibilities to tailor power take-off operation to the needs of your superstructure.

FEATURES & BENEFITS
- Easy to tailor PTO functions
- Quick and simple installation

I-SHIFT OPTION: ENHANCED PERFORMANCE – BAD ROADS
Includes a multitude of valuable functions for trucks that regularly drive in rough terrain, such as construction or timber trucks.

FEATURES & BENEFITS
- Prepares I-Shift for rough conditions
- Quick and simple installation
Communication and Electronics

Communication and Electronics

**SPEAKERS**
This series of additional loudspeakers is developed for Volvo’s audio units.

**FEATURES & BENEFITS**
- Excellent reproduction of sound
- Excellent vibration resistance
- Adapted to Volvo’s high acoustic and electrical requirements
- High moisture resistance

**TACHOGRAPH UPGRADE/DOWNGRADE TO DIGITAL/ANALOGUE**
If you want to change from an analogue to a digital tachograph, it’s available as an accessory. Downgrading from digital to analogue is also possible.

**FEATURES & BENEFITS**
- Easy to install and operate
- Increases road safety
- All good features from a digital tachograph

**LAPTOP HOLDER**
No longer a loose laptop in the cab. This practical holder keeps the laptop in a firm grip. Easy to turn towards the driver or the passenger. Mounted low on the engine tunnel, it doesn’t disturb the driver’s view. The holder is designed to securely fasten the laptop in place and provides excellent ventilation.

**FEATURES & BENEFITS**
- Safe attachment of the laptop
- Easy to view the laptop
- Easy to turn and doesn’t disturb the driver’s view

**AUDIO ADVANCED UPGRADE**
Upgrade your radio with useful features like MP3, Bluetooth, AUX and USB. The features can be operated by the audio system’s regular controls, e.g. the steering wheel controls.

**FEATURES & BENEFITS**
- Play music from iPod, USB memory sticks and other external audio sources
- Bluetooth functionality for hands-free mobile device
- High audio quality

**BATTERY INDICATOR**
The battery indicator shows reliable data on battery status – sensor outputs include current, voltage, temperature, charging and state of health.

**FEATURES & BENEFITS**
- Reliable battery charging information
- Reduced risk of flat battery
- Battery replacement indication

**BATTERY RECONDITIONER**
The battery reconditioner is a reliable option for more uptime, maximum battery performance and longer service life. It prevents and reverses sulphation on new batteries. It also restores performance on older batteries.

**FEATURES & BENEFITS**
- Increased uptime
- No more sulfated batteries - always quick and safe start power
- Eliminates high costs for downtime and failures due to battery problems

**BODY BUILDER MODULE (BBM) – ELECTRICAL INTERFACE FOR BODYBUILDERS**
Intended for advanced bodybuilding. Simplifies simultaneous use of multiple power take-offs and regulation of the engine via remote control. With the work remote control you can configure menus for Body builders and remote auxiliary BBM switches control.

**FEATURES & BENEFITS**
- Information directly into the driver display
- Several power take-offs can be operated at the same time
- The engine can be operated by remote control
- Simplifies installation of the superstructure
- Use the BBM functions in the WRC

**BURGLAR ALARM UPGRADE FOR TRUCK AND TRAILER**
Burglar alarm upgrade specially designed for Volvo. Protecting both truck and trailer from break-ins and theft.

**FEATURES & BENEFITS**
- Enhanced security for both driver and cargo
- 100 dB (A) siren
- Also includes a deterrent panic alarm
- This upgrade includes alarm for trailer

**ANTENNA FOR CB RADIO**
Communication radio antenna mounted on the right-hand side of the cab roof. The whip antenna can be tilted to enable adjustment to maximum height limits.

**FEATURES & BENEFITS**
- Easy to adapt to maximum height

**EXTerior VISION CAMERA**
Camera with heated lens and protective visor. Connected to the integrated secondary information display (SID-HIGH), it provides excellent visual supervising, also the blind spots, when reversing. Your truck can either be supplemented with camera 1, 2, 3, or/and 4 or be newly installed with camera 1, 2, 3 or/and 4.

**FEATURES & BENEFITS**
- Electrically operated visor protects the lens against dirt
- Heated camera prevents fogging and condensation
- Full colour image on the secondary information display (SID-HIGH)
- Improves safety

**POWER TAKE-OFF (PTO) RETROFIT/UPGRADE**
Volvo has a wide range of power take-offs, both engine and gearbox mounted, to power various kinds of equipment. PTO kits are available for a variety of configurations - type of truck, engine/gearbox and application.

**FEATURES & BENEFITS**
- Built to fit Volvo engines and transmissions
Recommended extras

**WARNING VEST: FLUORESCENT**
The safety vest makes the driver clearly visible on the roadside. It is made of yellow fluorescent polyester fabric and it features three 50 mm wide reflective strips at the front and back.

**FEATURES & BENEFITS**
- Enhanced safety – should be available in all vehicles
- Resistant to fuel and oil
- Washable in 40°C

---

**CAB FRESH AIR FILTER**
Filter for improving the air quality in the cab. Replaces the existing filter. Filters out pollen, atmospheric dust, soot and smoke dust, reduces bad smells and harmful gases.

**FEATURES & BENEFITS**
- Suitable for sensitive people
- High filtration rate, removes very small particles
- Good for those who suffer from pollen allergy

---

**REVERSING ALARM**
Enhances safety for pedestrians and vehicles behind a reversing truck. The alarm is connected to the truck’s tail lamp and sounds automatically when the reverse gear is selected.

**FEATURES & BENEFITS**
- Enhanced safety for pedestrians and vehicles
- Activates automatically when reverse is selected
- Easy to fit
- Durable and weatherproof design

---

**FIRE EXTINGUISHER**
The fire extinguisher is an important part of the safety equipment. Extremely reliable, high capacity and withstands temperatures down to -30°C. Also for extinguishing fires in electrical systems and brakes.

**FEATURES & BENEFITS**
- An important safety item
- Mounted by the driver’s seat
- High capacity (0.2, 0.3 or 3 kg)

---

**FIRST AID CUSHION**
All-in-one, useful package for slight and serious injuries: sticking plaster, washing and drying pads, compresses, elastic bandages, respiratory mask, gloves, scissors etc.

**FEATURES & BENEFITS**
- No waste of time in emergency situations
- Complete kit, conveniently packaged
- All items are individually packed and sterile
- Multi-language instructions

---

**RED SEAT BELT**
Volvo’s red seat belt has the same function as a standard three-point seat belt. But the red colour further emphasises the importance of using it. A good initiative to improve traffic safety.

**FEATURES & BENEFITS**
- Clearly indicates use of seat belts
- Contributes to improving the company’s safety image

---

**REVERSING ALARM**
Enhances safety for pedestrians and vehicles behind a reversing truck. The alarm is connected to the truck’s tail lamp and sounds automatically when the reverse gear is selected.

**FEATURES & BENEFITS**
- Enhanced safety for pedestrians and vehicles
- Activates automatically when reverse is selected
- Easy to fit
- Durable and weatherproof design

---

**SMOKE DETECTOR**
The smoke detector sounds an alarm in the event of fire or smoke in the cabin.

**FEATURES & BENEFITS**
- Can be a life-saver
- A function allows for temporarily disabling the device (e.g. for smoking)
- Easy to attach

---

**BULB AND FUSE KIT**
The box contains 24 V bulbs and fuses of different sizes and models. With this kit always packed in the truck, you have new bulbs and fuses at hand and it becomes safer and more secure to travel both day and night.

**FEATURES & BENEFITS**
- Always the most common bulbs and fuses at hand
- The items packed in a practical plastic box
- Contributes to safe and secure travelling
